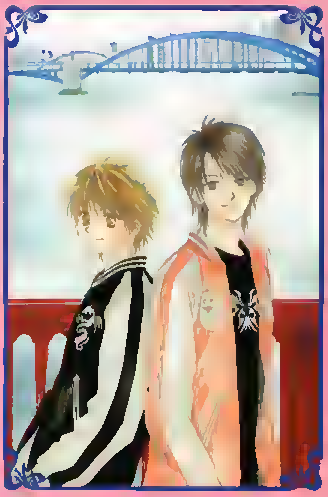
After that spontaneous kiss on the night of the Flower Festival, things got awkward between Taiyo and Saho. Nevertheless, life must go on. Taiyo's entire class is moving up together this new school term, and that means the members of B.B Company (except poor Sawa) are classmates again! As Taiyo and Saho struggle to overcome their unnatural estrangement, Mitarai from the Flower Festival challenges Taiyo and Sawa to yet another flower competition, not as a group but as individuals! It looks like Taiyo will be going up against Sawa for real this time! What impact will the competition have on the class and the people around them?



About the book...

On the night of the Flower Festival, Saho planted a kiss on Tayo's cheek! Feeling awkward about it afterwards, she starts to avoid Tayo like the plague. On the other hand, Tayo starts to realise his feelings for Saho. On the other hand, Sono suddenly asks Mei if it's true that she likes him. Without thinking, Mei nods and says 'Yes!' What will become of the B.B Company's love affairs now?!
